All Shippers shall follow SOLAS (Safety Of Life At Sea) Regulations, commencing July 1, 2016, and/or any local laws or regulations to provide the Carrier with the Verified Gross Mass ("VGM") for all export containers tendered to the Carrier for shipment before the containers are loaded aboard Carrier's vessel. Since there are different regulations at individual ports regarding the actual time when the VGM has to be provided, Merchants are directed to the websites of Carrier's local agents for the time when the VGM has to be submitted. If the certified VGM is not provided to the Carrier before loading, the affected containers will not be loaded on Carrier's vessel. For Further information regarding SOLAS VGM requirement, please see:
