

LAMPIRAN 8: ANALISIS TAMBAHAN

1. Nonparametric Correlations (LAKI-LAKI)

Correlations			kebersyukuran	keterlibatan_kerja
Spearman's rho	kebersyukuran	Correlation Coefficient	1,000	,528**
		Sig. (2-tailed)	.	,000
		N	83	83
	keterlibatan_kerja	Correlation Coefficient	,528**	1,000
		Sig. (2-tailed)	,000	.
		N	83	83

** . Correlation is significant at the 0.01 level (2-tailed).

Nonparametric Correlations (PEREMPUAN)

Correlations			kebersyukuran	keterlibatan_kerja
Spearman's rho	kebersyukuran	Correlation Coefficient	1,000	,406*
		Sig. (2-tailed)	.	,013
		N	37	37
	keterlibatan_kerja	Correlation Coefficient	,406*	1,000
		Sig. (2-tailed)	,013	.
		N	37	37

* . Correlation is significant at the 0.05 level (2-tailed).

2. Nonparametric Correlations (PNS)

Correlations			kebersyukuran	keterlibatan_kerja
Spearman's rho	kebersyukuran	Correlation Coefficient	1,000	,551**
		Sig. (2-tailed)	.	,000
		N	39	39
	keterlibatan_kerja	Correlation Coefficient	,551**	1,000
		Sig. (2-tailed)	,000	.
		N	39	39

** . Correlation is significant at the 0.01 level (2-tailed).

Nonparametric Correlations (NON PNS)

Correlations			kebersyukuran	keterlibatan_kerja
Spearman's rho	kebersyukuran	Correlation Coefficient	1,000	,414**
		Sig. (2-tailed)	.	,000
		N	81	81
	keterlibatan_kerja	Correlation Coefficient	,414**	1,000
		Sig. (2-tailed)	,000	.
		N	81	81

** . Correlation is significant at the 0.01 level (2-tailed).

3. Nonparametric Correlations (UMR)

Correlations			kebersyukuran	keterlibatan_kerja
Spearman's rho	kebersyukuran	Correlation Coefficient	1,000	,462**
		Sig. (2-tailed)	.	,000
		N	85	85
	keterlibatan_kerja	Correlation Coefficient	,462**	1,000
		Sig. (2-tailed)	,000	.
		N	85	85

** . Correlation is significant at the 0.01 level (2-tailed).

Nonparametric Correlations (DIATAS UMR)

Correlations			kebersyukuran	keterlibatan_kerja
Spearman's rho	kebersyukuran	Correlation Coefficient	1,000	,536**
		Sig. (2-tailed)	.	,001
		N	35	35
	keterlibatan_kerja	Correlation Coefficient	,536**	1,000
		Sig. (2-tailed)	,001	.
		N	35	35

** . Correlation is significant at the 0.01 level (2-tailed).
