

ABSTRAK

Proses integrasi di kawasan Uni Eropa menawarkan berbagai macam model serta konsep yang menarik untuk dibahas. Salah satu bentuknya yaitu *European Union-Ukraine Association Agreement*. Kerjasama yang menawarkan konsep integrasi tersebut memiliki beberapa elemen penting diantaranya modernisasi ekonomi, nilai-nilai Eropa dan *Deep Comprehensive Free Trade Area* (DCFTA). Proses tersebut pastinya akan berdampak ke beberapa sektor salah satunya ekonomi. Hal tersebut membuat timbul pertanyaan bagaimana dampak *European Union-Ukraine Association Agreement* terhadap perekonomian Ukraina. Skripsi ini akan menggunakan landasan teori “spillover effect”, dimana skripsi ini akan membahas bagaimana dampak ekonomi serta efek limpahan pada proses integrasi yang terjadi akibat kerjasama tersebut.

Kata Kunci : *Uni Eropa, Ukraina, Association Agreement, Deep Comprehensive Free Trade Area, Integrasi*

ABSTRACT

The integration process in the European Union provides a variety of interesting models and concepts to discuss. One form is the EU-Ukraine Association Agreement. A collaboration that provides a dynamic concept that has several important elements in economic modernization, European values and the Deep Comprehensive Free Trade Area (DCFTA). The process is definitely an alias affecting some economies one of them. This raises the question of how to change the EU-Ukraine Association Agreement on the Ukrainian economy. This thesis will use the theory of the "spillover effect", the current thesis will be dissected against the economic effects and the overflow effects that occur at this time.

Keywords : *European Union, Ukraine, Association Agreement, Deep Comprehensive Free Trade Area, Integration*
