BAB III METODE PENELITIAN ........................................................................................................... 20
  3.1 Objek Penelitian ......................................................................................................................... 20
  3.2 Sumber Data ............................................................................................................................. 20
  3.3 Metode Pengumpulan Data ....................................................................................................... 20
  3.4 Metode Analisis Data ............................................................................................................... 21
    3.4.1 Uji validitas dan reliabilitas ............................................................................................... 21
    3.4.2 Analisis SWOT .................................................................................................................. 22
    3.4.3 Blue Ocean Strategy ......................................................................................................... 23
  3.5 Alur Penelitian ......................................................................................................................... 23
    3.5.1 Identifikasi masalah .......................................................................................................... 25
    3.5.2 Merumuskan masalah ...................................................................................................... 25
    3.5.3 Batasan masalah ................................................................................................................. 25
    3.5.4 Menentukan tujuan .......................................................................................................... 25
    3.5.5 Pengumpulan data .......................................................................................................... 25
    3.5.6 Penyebaran kuesioner ...................................................................................................... 26
    3.5.7 Uji kecukupan data .......................................................................................................... 26
    3.5.7.1 Uji validitas .................................................................................................................. 26
    3.5.7.2 Uji reliabilitas .............................................................................................................. 27
    3.5.8 Pengolahan data .............................................................................................................. 27
    3.5.9 Analisis data blue ocean strategy .................................................................................... 27
    3.5.10 Pembahasan .................................................................................................................... 27
    3.5.11 Kesimpulan dan saran ..................................................................................................... 27

BAB IV PENGUMPULAN DAN PENGOLAHAN DATA ........................................................................... 28
  4.1 Faktor Internal .......................................................................................................................... 28
    4.1.1 Profil Perusahaan .............................................................................................................. 28
    4.1.2 Visi dan Misi Perusahaan ............................................................................................... 29
    4.1.3 Nilai Perusahaan .............................................................................................................. 30
    4.1.4 Struktur Organisasi Perusahaan ..................................................................................... 30
    4.1.5 Data Operasional .............................................................................................................. 30
    4.1.6 Produk .............................................................................................................................. 31
    4.1.7 Data pemasaran dan distribusi ....................................................................................... 31
  4.2 Faktor Eksternal ...................................................................................................................... 32
    4.2.1 Ekonomi ............................................................................................................................ 32
4.2.2 Teknologi ................................................................. 32
4.2.3 Konsumen ............................................................... 33
4.2.4 Pesaing ................................................................. 33
4.3 Data Tanggapan Konsumen ............................................ 34
  4.3.1 Variabel yang digunakan dalam kuisioner ...................... 34
4.4 Pengolahan Hasil Data Kuisioner .................................... 37
  4.4.1 Uji kecukupan data ................................................. 37
  4.4.2 Uji validitas ......................................................... 39
  4.4.3 Uji Reliabilitas ..................................................... 41
  4.4.4 Rekapitulasi hasil kuesioner ..................................... 42
  4.4.5 Penetuan nilai strengths dan weaknesses ...................... 44
4.5 Eksternal Faktor Analisis Strategi (EFAS) ......................... 44
  4.5.1 Internal Faktor Analisis Strategi (IFAS) ....................... 45
4.6 Matriks Profil Persaingan ........................................... 46

BAB V PEMBAHASAN .......................................................... 48
5.1 Analisa Matriks EFAS ................................................. 48
5.2 Analisa Matriks IFAS ................................................. 48
5.3 Analisis SWOT .......................................................... 49
5.4 Analisa Matriks Profil Persaingan .................................. 49
5.5 Analisa Data Hasil Kuesioner ......................................... 50
5.6 Penerapan Blue Ocean Strategy ..................................... 52
  5.6.1 Kanvas Strategi Awal ......................................... 52
  5.6.2 Kerangka Kerja Empat Langkah ............................... 54
  5.6.2.1 Faktor yang dihapuskan ..................................... 54
  5.6.2.2 Faktor yang ditingkatkan ................................... 54
  5.6.2.3 Faktor yang dikurangi ........................................ 55
  5.6.2.4 Faktor yang diciptakan ...................................... 55
  5.6.3 Skema Hapuskan-Kurangi-Tingkatkan-Ciptakan ............... 57
  5.6.4 Perbandingan kanvas strategi baru dengan pesaing .......... 58
  5.6.5 Perbandingan kanvas strategi awal dengan kanvas strategi baru ....... 59
  5.6.6 Analisa tiga ciri strategi yang baik ............................. 60

BAB VI PENUTUP .............................................................. 63
6.1 Kesimpulan ............................................................... 63
6.2 Saran .................................................................................................................. 63
DAFTAR PUSTAKA ................................................................................................. 65
LAMPIRAN ............................................................................................................... 68
DAFTAR TABEL

Tabel 2.1 Perbedaan antara strategi samudra merah dan samudra biru ......................... 15
Tabel 4.1 Hasil Kuisioner Mie Ayam dan Bakso Semangat ........................................... 35
Tabel 4.2 Hasil Kuisioner Mie Ayam dan Bakso Nunggal Roso ...................................... 36
Tabel 4.3 Kecukupan Data Mie Ayam dan Bakso Semangat .......................................... 38
Tabel 4.4 Kecukupan Data Mie Ayam dan Bakso Nunggal Roso .................................. 39
Tabel 4.5 Uji Validitas Mie Ayam & Bakso Semangat ..................................................... 40
Tabel 4.6 Uji Validitas Mie Ayam & Bakso Nunggal Roso ............................................. 40
Tabel 4.7 Uji Reliabilitas ................................................................................................. 42
Tabel 4.8 Rekapitulasi Hasil Kuisioner Mie Ayam & Bakso Semangat ......................... 43
Tabel 4.9 Rekapitulasi Hasil Kuisioner Mie Ayam & Bakso Nunggal Roso .................. 43
Tabel 4.10 Penentuan Strengths dan Weaknesses dari Hasil Kuisioner ......................... 44
Tabel 4.11 Matriks EFAS ............................................................................................... 45
Tabel 4.12 Matriks IFAS ................................................................................................. 46
Tabel 4.13 Matriks Profil Persaingan .............................................................................. 47
Tabel 5.1 Nilai Rata-Rata Hasil Kuisioner ....................................................................... 52
Tabel 5.2 Nilai Rata-Rata Hasil Kuisioner Variabel yang Diciptakan ............................. 57
DAFTAR GAMBAR
