Uji Asumsi Normalitas

Uji Asumsi Linearitas

Uji Hipotesis

A. Uji Asumsi Normalitas

	Kolmogorov-Smirnov ^a			Shapiro-Wilk		
	Statistic	df	Sig.	Statistic	df	Sig.
jumlahitemPA	.118	75	.012	.978	75	.203
jumlahitemKGO	.071	75	.200*	.985	75	.541

*. This is a lower bound of the true significance.

a. Lilliefors Significance Correction

B. Uji Asumsi Linearitas

Case Processing Summary

	Included		Excluded		Total	
	N	Percent	N	Percent	N	Percent
jumlahitemPA * jumlahitemKGO	75	100.0%	0	0.0%	75	100.0%
