DAFTAR ISI

Daftar isi ........................................................................................................................................ i

Bab I Pendahuluan

1.1. Latar belakang ......................................................................................................................... 1
1.2. Perumusan masalah ................................................................................................................. 3
1.3. Tujuan penelitian ...................................................................................................................... 4
1.4. Manfaat penelitian .................................................................................................................... 4
1.5. Keaslian penelitian ................................................................................................................... 5

Bab II Tinjauan pustaka

2.1. Telaah pustaka ......................................................................................................................... 7
   2.1.1. Menarche ........................................................................................................................... 7
      2.1.1.1. Definisi menarche ........................................................................................................ 7
      2.1.1.2. Karakteristik menarche .............................................................................................. 7
      2.1.1.3. Macam-macam menarche ........................................................................................... 7
      2.1.1.4. Faktor-faktor yang mempengaruhi menarche ............................................................ 8
      2.1.1.5. Fisiologi menarche ..................................................................................................... 11
      2.1.2. Indeks Massa Tubuh (IMT) ............................................................................................ 15
         2.1.2.1. Definisi Indeks Massa Tubuh (IMT) ......................................................................... 15
         2.1.2.2. Hubungan IMT dengan menarche ........................................................................... 16
         2.1.2.3. Hubungan IMT dengan lingkar perut ........................................................................ 17
      2.2. Kerangka teori ...................................................................................................................... 18
      2.3. Kerangka konsep penelitian ............................................................................................... 19
      2.4. Hipotesis .............................................................................................................................. 19

Bab III Metode penelitian

3.1. Jenis dan rancangan penelitian ............................................................................................... 20
3.2. Waktu dan tempat penelitian ............................................................................................... 20
3.3. Populasi dan subyek penelitian ............................................................................................. 21
3.4. Variabel penelitian .................................................................................................................. 21
3.5. Definisi operasional ................................................................................................................. 21
3.7. Alur penelitian ......................................................................................................................... 22
3.9. Etika penelitian .......................................................... 23
3.10. Jadwal penelitian .......................................................... 23

Bab IV Hasil dan pembahasan
4.1. Gambaran penelitian .......................................................... 25
4.2. Hasil penelitian .......................................................... 26
4.3. Pembahasan .......................................................... 27
   4.3.1. Hubungan antara indeks massa tubuh dan umur menarche .................. 27
   4.3.2. Hubungan antara lingkar perut dan umur menarche .................. 29
4.4. Keterbatasan .......................................................... 31

Bab V Kesimpulan dan saran
5.1. Simpulan .......................................................... 33
5.2. Saran .......................................................... 33
Daftar pustaka .......................................................... 34

Lampiran
DAFTAR TABEL

Tabel 1. Cara mengukur Indeks Masa Tubuh .......................................................... 15
Tabel 2. Klasifikasi Indeks Masa Tubuh menurut WHO .................................. 15
Tabel 3. Klasifikasi Indeks Masa Tubuh menurut Kemenkes RI .......................... 15
Tabel 4. Definisi Operasional .............................................................................. 21
