

## CHAPTER IV

### CONCLUSION

What needs to be developed in writers' teaching practice is, as a teacher must be have variety methods and effective in accordance with the level of students' willingness to learn and teach students in order to make students interest and engage to the class. Furthermore, students become motivated to learn English

To be a good teacher should be more practice and practice, the aim of doing that is to reduce nervous when teacher speaks in front of the class. And then it is important to approach to the students in order to make a good communication and students will be more to feel closes to the teacher, it can make students to be active in the class and more open way with one another, so that students do not feel overwhelmed and do not feel burdensome students.
