Education world cannot be separated from management and marketing. School management is the most important factor in the implementation of education and teaching in school in which its success is measured from the output obtained. This research aims to observe the implementation of education management and school marketing in Al-Azhar Yogyakarta Boarding School.

This is a qualitative research in which the informants of this research were the academic fields of protocol and corporate marketing. The data were collected through observation, interview and documentation method using purposive sampling technique. The results of this study indicate that the education management and marketing schools used at Al-Azhar Yogyakarta Boarding School are as follows:

1. Producing school management programs running better so that they are able to accept and answer the challenges of the globalization era in an increasingly modern and sophisticated era, and we always prioritize morality, science and technology able to compete, both at national and international levels, so that students are capable and superior in science and technology and imtaq.
2. Students enrolling at Al-Azhar Yogyakarta Boarding School have increased based on the past year. In the 2018-2019 school year there were 1125 students, we accepted 725 new students and 400 were declared not graduated or eligible to enter the Al-Azhar Yogyakarta Boarding School. Then for the admission of new students from the 2019-2020 school year who enrolled in the Yogyakarta Boarding School Al-Azhar school is 1345, we received 845 new students and 500 were declared not to graduate or are eligible to enter the Al-Azhar Yogyakarta Boarding School.
