INSTISARI

Penelitian ini bertujuan untuk mengembangkan buku cerpen “What We Talk About, When We Talk About Chemistry” dan mengetahui kelayakannya. Penelitian ini merupakan penelitian pengembangan menggunakan model R&D Borg And Gall yang terdiri dari 3 tahap yaitu 1) penelitian dan pengumpulan informasi (*research and information collecting*) 2) perencanaan (*planning*), 3) pengembangan produk awal (*develop preliminary form of product*). Pada tahap penelitian dan pengumpulan informasi (*research and information collecting*) dilakukan analisis kebutuhan ke peserta didik dan guru, tahap perencanaan (*planning*) yaitu melakukan perancangan sumber belajar yang ingin dikembangkan, dan tahap pengembangan produk awal (*develop preliminary form of product*) yaitu pembuatan sumber belajar yang sudah dirancang dan dinilai kelayakannya oleh ahli materi dan media. Hasil kelayakan buku cerpen “*What We Talk About, When We Talk About Chemistry*” yaitu layak digunakan sebagai sumber belajar dengan penilaian sangat baik.

Kata kunci: sumber belajar, cerpen, model pengembangan R&D Borg And Gall

**THE DEVELOPMENT OF SHORT STORY LEARNING RESOURCES
“What We Talk About, When We Talk About Chemistry”**

ABSTRACT

The research aims to develop the short story book "What We Talk About When We Talk About Chemistry" and determine its feasibility. This research is a development study using a R&D Borg and Gall model of 3 stages research and information collecting, planning, and develop preliminary form of product. At the research and information collecting stage the need analysis to learners and teachers, the planning stage performed by design of learning resources that you want to develop, and the stage of develop preliminary form of product namely making learning resource that have been designed and assessing their feasibility by material and media experts. The results of the feasibility of the short story book "What We Talk About When We Talk About Chemistry" is worthy of being used as a learning resource with a very good assessment.

Keywords: development, short story, Borg And Gal R&D development model
