

## ABSTRAK

Penelitian ini menguji faktor-faktor yang mempengaruhi perilaku kecurangan akademik yang terjadi pada mahasiswa. Faktor-faktor tersebut dihibungkan dengan konsep *fraud diamond*, konsep religiusitas serta peran *gender* di dalamnya. Penelitian ini menggunakan metode survei. Sample penelitian sebesar 150 responden mahasiswa Jurusan Akuntansi Fakultas Ekonomi Universitas Islam Indonesia. Hasil penelitian menunjukkan bahwa tekanan, kesempatan, rasionalisasi, dan kemampuan berpengaruh positif signifikan terhadap perilaku kecurangan akademik. Namun religiusitas dan gender tidak memiliki pengaruh. Tidak ada perbedaan perilaku kecurangan akademik antara laki-laki dan perempuan.

Kata Kunci : perilaku kecurangan akademik, tekanan, kesempatan rasionalisasi, kemampuan, religiusitas, *gender*

*The aim of this research is to examined factors influencing student's academic fraud behavior. The factors determined by the fraud diamond concept and religiosity concept. The research also aim to examine the behavior between male and female students toward cheating. By using the survey method, 150 accounting students who is currently studying in Accounting Department of Universitas Islam Indonesia was choosen to be the respondend of this research. The result found that all four of the fraud diamond concept which are, pressure, opportunity, rationalization, and capability significantly influenced the student's behavior toward academic fraud. But, there is no relation between the student's behavior towards cheating and their religiosity. Female students and male students also have the same view towards cheating. So it can be concluded that there is no difference between male and female student's behavior towards cheating.*
