

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter describes of conclusion the research finding on previous chapter.

A. Conclusion

Based on the finding and discussion on chapter four, it could be conclude that the students' respon about perception on the use of jigsaw technique in reading comprehension in the teaching learning give an effect to enhance their achievement the reading skill. It was supported by requiring data questionnaire items show that comparison of percentage each items. For item A 5%, item B 53%, item C 37% and item D 3%. And the result of percentage the highest is item B 53% students respond that jigsaw technique was able to enhance their perception in reading comprehension. Moreover, this research also supported by reading test and the result show that there are differencesscore between before and after treatment in this test.

B. Suggestion

In this reserach, researcher would like to give some suggestion for teachers, students and next researchers to improve the students' ability in reading comprehension through jigsaw technique to get better result.

1. For teachers

Teachers can implemented jigsaw technique for improve students' comprehension. after jigsaw technique implemented in the classroom can help students more active and able to socialized with another when learning activities ongoing because they are more enjoyed with the learning activities focus on group discussion.

2. For students

The students of grade X IPS 1 at SMAN 1 Pakem during a research students to keep on their motivating to learn more English language skill such as reading, writing, speaking and writing. They can more practice and active to improve students' ability in reading skill.

3. For next researcher

Researcher hopes for next researcher there is an improvement to do the research to be better in preparation time to collecting data to more effective to have a better result and give positive influence for students an improving their reading skill.
