“You can do it girl, of course you can. You will get there.”

PREFACE

Assalamualaikum Wr. Wb.

Alhamdulillah and gratitude are presented to Allah, which has always grants with His grace, strength, and blessing so the author could complete this undergraduate thesis.

Therefore, the author would like to thank for those who have been constantly sending supports and motivations in the making of this report. The author would like to thank:

1. Allah SWT, for all uncountable blessings every day and also Rasulullah Muhammad SAW for His guidance in the right way.
2. My beloved mother, father, sisters, and other families for the prayer, support, and motivation.
3. Ir. Hartomo Soewardi, M.Sc., Ph.D. as the supervisor for unlimited time for helping, supporting, and advising.
4. Mr. Catur Atmaji, S.Si, M.Sc as outer supervisor for lending and teaching the operation of Ganglion tools.
5. Mrs. Tri Handayani as Physics teacher in Senior High School for her helpfulness in accommodating me and making easy contacting the subjects.
6. Muhammad Ridwan Andi Purnomo., ST., M.Sc., Ph.D as Head of International Program Industrial Engineering Universitas Islam Indonesia
7. Dr. Drs. Imam Djati Widodo, M.Eng.Sc. as dean of Industrial Technology Faculty, Universitas Islam Indonesia
8. All of my friends from Industrial Engineering International Program especially batch 2013 for the support, motivation even annoying that cannot be mentioned one by one.
9. Mrs. Diana and Mrs. Devi that patiently help the students, especially the author.
10. Jaler, Hanif, and others who I do not know the name for helping in taking data.
11. Tom's Warrior: Sasa, Ekky, Jefin, Bari, Mbak Nanda, Arum, Ken, Yoga, Enggang, for supporting and unconditional motivation, glad to know you all.

The Authors also thanks to all of concerned parties that cannot be mentioned one by one who have helped me in completing this report. Hopefully, the goods which are given by all parties to the Author will be replied by the kindness from Allah.

Finally, the Author realizes that there are still shortcomings as well as weaknesses in this report, so the building suggestions and critics are fully expected. The author hopes this paper would bring advantages for everyone who reads this.

Wassalamualaikum Wr. Wb.
